CAREER OBJECTIVE

Motivated and hardworking Computing student with hands-on experience in Python, SQL, and data analysis through academic projects and a data analysis internship. I have strengthened my analytical thinking, problem-solving, and teamwork skills while working with real-world datasets. I am eager to contribute to real-world data engineering projects, expand my knowledge of data pipelines and cloud technologies, and grow my career in data engineering.

EDUCATION

BSc (Hons) Computing — Islington College, London Metropolitan University 2023 – 2026
Kamal Pokhari, Kathmandu

+2 (Science) — Kathmandu Model Secondary School, National Examinations Board 2020 – 2022
Balkumari, Lalitpur

SEE — City Academy, National Examinations Board 2020
Pannabag-5, Kalaiya

EXPERIENCE

Data Analyst Intern — ING Skill Academy (New Baneswor) Aug 2025 – Nov 2025

Cleaned, organized, and analyzed datasets using Python and Excel. Performed data validation and quality checks to ensure accuracy, created reports and visualizations to support business decisions, and collaborated with team members to identify trends and improve data quality.

QC Intern — ING Skill Academy Jan 2025 – Aug 2025

Conducted quality checks on branding materials for ING Group institutions, including Islington College, Informatics College Pokhara, Herald College Kathmandu, Itahari International College, and Apex College, ensuring consistency, accuracy, and adherence to brand standards while coordinating with design teams to implement feedback.

Brand Management Intern — ING Skill Academy Sep 2024 – Jan 2025

Supported brand positioning by maintaining brand consistency and assisting with branding activities across projects.

Experience Ambassador — ING Skill Academy Aug 2024 – Sep 2024

Assisted visitors, answered inquiries, and ensured a positive experience through clear and professional communication.

SKILLS

Programming Languages: Python, JavaScript, C# .NET, Java

Web Development: HTML, CSS, React, Node.js

Databases: PostgreSQL, MySQL, MongoDB

SQL: Basic SQL Queries, Joins, and Aggregations

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Tools: VS Code, Visual Studio, Jupyter Notebook, Excel, Word, Figma, Eclipse

Version Control: Git, GitHub

QA/Testing: Manual Testing, Test Case Writing, Software Development Life Cycle (SDLC)

Soft Skills: Strong verbal and written communication, effective team collaboration, high attention to detail, adaptability, problem-solving, time management, and a customer-focused mindset

PROJECTS

Fake Job Posting Detection

- Developed a machine learning system using Python, Pandas, and Scikit-learn to detect fraudulent job postings. Preprocessed text datasets, trained classification models, and evaluated model performance using real-world job posting data.

GoTrad

- Developed a full-stack rental platform using React, Express.js, Node.js, and MongoDB. Implemented JWT-based authentication, booking management, image uploads, and AI-based color recommendations for traditional dress rentals.

Journal App

- Developed a cross-platform journal application using .NET MAUI, C#, Entity Framework Core, and SQLite. Implemented features including rich text journaling, mood tracking, categorization, search functionality, and local data persistence for efficient journal management.

BestCure Pharma E-commerce Website

- Developed a full-stack e-commerce application using Java and MySQL. Implemented role-based authentication, product management, inventory tracking, and order processing for customers and administrators.

ACHIEVEMENTS

- **AWS Academy** — Cloud Foundations
- **AWS Academy** — Data Engineering
- **AWS Academy** — Machine Learning Foundations
- **AWS Academy** — Machine Learning for Natural Language Processing
- **Learning Python** — LinkedIn Learning
- **Python Data Analysis** — LinkedIn Learning
- **Introduction to Data Science** — LinkedIn Learning
- **Statistics Foundations** — LinkedIn Learning
- **Anaconda Python for Data Science** — LinkedIn Learning
